Hello. Thank you for the offer for us to see some of the drilling sites. I would be interested if time allows and if the weather holds out. If the rain continues, it might just be a wind-shield survey. Also, fyi, Steve Scharf most likely will be accompanying us.

Thank you Brian,
I'll give Mike a call regardless of whether Carol and I have time to observe. Thank you for his number.
Rob

Mikes number is Personal Privacy/ Ex 6 (cell phone)

Hope you can stop by – you'll laugh to know: the team had an excursion in Feb to the Natural History Museum, did a scavenger hunt, Mike and my team won, the prize was an Einstein bobblehead, but he looked more like you and Mark Twain, so we named it after you and it holds a place of honor in the field office!

Regards,
Brian

Thanks, Brian. I'll keep things flexible, and would appreciate Mike's cell phone number just in case. Steve S is also participating in the "Hooker" visit and Carol and I have a couple of places to observe not specific to drilling.

Regards
Rob

Hi Rob —

Give me a heads up if you and Carol decide you want to see any drilling sites — Mike Zobel is serving as our onsite field manager and can show you around.

Regards,
Brian

I'll be joining Carol Stein and Mike Negrelli at a Five Year Review site inspection of the "Hooker-Ruco Polymers" site in Hicksville Thurs. Carol and I were interested in perhaps using a bit of time after that to observe any of the Navy drilling, but it looks like rain is forecast, and I'm not sure she'd be interested in getting wet.

I'll be missing the Ap 20 RAB meeting as there is a Design Construction at Hazardous Waste Sites conference in Philadelphia that week and I usually schedule vacation to attend. Lots of USACE and contractor representation. You'd enjoy it.

Regards
Rob Alvey
